Karl Brooks, Regional Administrator  
US EPA Region 7  
901 N. 5th Street  
Kansas City, KS 66101

Dear Mr. Brooks,

In response to the Prevention of Significant Deterioration and Title V Greenhouse Gas Tailoring Rule's (PSD & Title V GHG Tailoring Rule) request for a 60-day letter, the Lincoln-Lancaster County Health Department (LLCHD) submits the following responses:

1. The LLCHD intends to apply the meaning of the term "subject to regulation" established by the EPA in the PSD & Title V GHG Tailoring Rule. To do so, the LLCHD will take regulatory action by revising the Lincoln-Lancaster County Air Pollution Control Program Regulations and Standards (LLCAPCPRS) to allow for this change. We plan to work closely with the Nebraska Department of Environmental Quality (NDEQ) to draft language that allows for consistency between the regulatory authorities.
2. Previous discussions with NDEQ personnel indicate that they would plan to adopt the rule by January 2, 2011. Because the LLCHD believes it is in the best interest to maintain regulatory consistency between the programs, the LLCHD would plan to adopt the rule with an effective date of January 2, 2011.

The first Title V operating permit that would likely be affected by this rule is scheduled for renewal on May 10, 2011. We do not currently have any PSD permits that would be affected by this rule.

The LLCHD believes that this letter will fulfill the requirement to submit a letter to the appropriate Regional Administrator by August 2, 2010. Please feel free to contact me at (402) 441-6236 if you have any questions or comments. Thank you.

Sincerely,

Rick Thorson  
Environmental Health Supervisor – Air Quality Program
